

# PRODUCT DATASHEET Orbis Slim Moia 480mm 36W White

# CEILING MOIA | LED ceiling luminaires with metal ring

#### Areas of application

- Indoor applications

- Kitchens, living rooms, children's rooms or home offices

#### Product benefits

- Very homogenous light
- Elegant design

#### **Product features**

- Decorative domestic lighting
- Ceiling luminaire with advanced LED technology

#### **TECHNICAL DATA**

#### Electrical data

| Nominal wattage                      | 36.00 W       |
|--------------------------------------|---------------|
| Nominal voltage                      | 220240 V      |
| Mains frequency                      | 5060 Hz       |
| Nominal current                      | 160.000 mA    |
| Inrush current                       | 3 A           |
| Inrush current time T <sub>h50</sub> | 100 µs        |
| Power factor $\lambda$               | > 0.90        |
| Total harmonic distortion            | < 70 %        |
| Protection class                     | 1             |
| Operating mode                       | Mains voltage |

# Photometrical data

| Luminous flux                                  | 2700 lm    |
|--|------------|
| Total luminous flux of contained light sources | 4500 lm    |
| Luminous efficacy                              | 75 lm/W    |
| Color temperature                              | 3000 K     |
| Light color (designation)                      | Warm White |
| Color rendering index Ra                       | > 80       |
| Standard deviation of color matching           | 6 sdcm     |
| Flickering metric (Pst LM)                     | <1         |
| Stroboscope effect metric (SVM)                | <0.4       |
| Photobiological safety group acc. to EN62778   | RG0        |
| Photobiological safety group acc. to EN62471   | RG0        |
| Beam angle                                     | 120 °      |

# **Dimensions & Weight**

| Diameter       | 480.00 mm |
|----------------|-----------|
| Height         | 50.00 mm  |
| Product weight | 1970.00 g |

#### Materials & Colors

| Product color                              | White                         |  |
|--|-------------------------------|--|
| Housing color                              | White                         |  |
| Body material                              | Steel                         |  |
| Cover material                             | Polymethylmethacrylate (PMMA) |  |
| Glow Wire Test according to IEC 60695-2-12 | 650 °C                        |  |
| Mercury content                            | 0.0 mg                        |  |

### **Application & Mounting**

| Ambient temperature range              | -20+40 °C                   |
|--|-----------------------------|
| Temperature range at storage           | -20+60 °C                   |
| Type of connection                     | Terminal, 3-Pole (L, N, PE) |
| Type of protection                     | IP20                        |
| Protection class IK (shock resistance) | IK03                        |
| Dimmable                               | No                          |
| Mounting type                          | Surface                     |
| Application environment                | Indoor                      |
| With light source                      | Yes                         |

#### Lifespan

| Lifespan L70/B50 at 25 °C  | 50000 h <sup>1)</sup> |
|----------------------------|-----------------------|
| Number of switching cycles | 25000                 |

1) t[h]: L70 / B50 @ 25 °C (Ta), t[h]: L80 / B10 @ 25 °C (Ta), t[h]: L90 / B10 @ 25 °C (Ta)

#### **Certificates & Standards**

| Standards  | CE / UKCA       |  |
|--|-----------------|--|
| Luminaire with limited surface temperature, "D sign" | No              |  |
| Replaceable light source (EPREL)                     | Not replaceable |  |

#### Additional product data

Number of illuminants

empty

#### Safety advice

- All electrical connections must be made by a qualified person.
- Caution, risk of electric shock.
- Product in protection class I. All electrically conductive, metallic housing parts that can absorb voltage during operation or during maintenance in the event of a fault must be continuously connected to the protective earthing conductor.
- Check wall-ceiling for suitability. If uncertain, seek professional advice.
